REMERCIEMENTS

The internship program is possible by having and providing comments from The Director and Lectures of Institute of Technology of Cambodia as well as from the company.

First of all, I would like to say thank deeply to our Excellency Dr. OM Romny, director of Institute of Technology of Cambodia that have a good cooperation with the company and gave us to have an opportunity to intern to get more experience related with us careers.

Also, saying thanks to **Mr. LAY Heng,** head of the Information and Communication Engineering at the Institute of Technology of Cambodia for its good management and is an integral part of education.

Mr. CHUN Thavorac, my supervisor and my advisor. As supervisor, he selected me intern with and teaches me a lot related with Web Development and Web Application Software including training laravel framework, writing clean code and readable, managing project by using Scrum Software Development Life Cycle, JIRA and Confluence Software Project Management, managing team, solving technical problem. For as advisor, he has anointed me throughout his time for giving solutions while I face problem related with writing thesis and have met all my questions without forgetting its participation in the progress of my work. I also greet for his remarks and corrections that allow me to write thesis of end of my interning.

All teachers in the department Information and Communication Engineering for knowledge they have given me during my studying at the ITC.

Especially thank deeply from my heart to **Mr. TUY Khoeung** and **Mrs. HANG Tai**, who are my beloved parents. They always supported me everything not only giving me an opportunity to study, money and times but also telling me being a good human resource in the society, being person who have morality and responsibility. Also, thank to my brothers, they often help my work at hometown and lets me continue my bachelor degree.
